Objections Made to the Duma's Interference in Foreign Affairs.

THE CZAR'S PLANS FOR 1912

Ministry for Moderation-A Semi-Official Discussion of the Commercial Phase of the Case.

ST. PETERSBURG, Jan. 3 .- An important element in Russia which frequently aggravates foreign relations finds itself employed just now in pouring oil on troubled waters. On the merits of the controversy with the United States Government the monarchist right in Russian politics is absolutely intransigeant, but its principles impel it to prevent the Duma from entering the international arena.

No sooner had the Octobrist-Nationalist majority launched their project for tariff reprisals on the expiration of the treaty with the United States than the Right intimated that, while applauding the "patriotic gesture," they would not follow. Treaties, they said, were for the Czar alone and his chosen advisers. Their view had evidently prevailed, and the retaliators are ready to hand over their case to Nicholas II.

Only once has the Duma been allowed to debate what should be Russia's attitude toward another Power. Three years ago when Count Ashrenthal had stolen a march on Mr. Isvolsky and added the Sazonoff and the Czar yesterday, the imported from the United States that Bosnians-in their Greek Church ritual the little brothers of Russian orthodoxy -to Kaiser Franz Josef's lively assortpowerful supporters in the church. raised a lamentation: the historic destiny of Russia had been betrayed.
